The Four Seasons

Autumn

Leaves change colour and fall. Harvest time is in autumn.

Winter

The coldest time of the year. Some animals hibernate.

Spring

Flowers begin to grow. Some baby animals are born.

Summer

The hottest time of the year. Flowers and trees are in full bloom.

Siân Mary Lloyd (born 3 July 1958) is a Welsh television presenter and meteorologist from Maesteg. She is the United Kingdom's longest-serving female weather forecaster, having appeared on ITV Weather for 24 years, from 1990 until 2014

BBC bitesize seasons

Day Length

The longest day of the year in the UK is in mid-summer. This falls on June 21st.

Summer solstice

The shortest day of the year in the UK is in mid-winter. This falls on December 21st.

Winter solstice

By the end of this unit, You will be able to:

Name the four seasons and identify when in the year they occur

Describe weather in different seasons over a year

Describe days as being longer (in time) in the summer and shorter in the winter

Describe other features that change through the year

Weather symbols

We can use these to record what the weather is like where we live.
